Creating layers To add a layer, display the menu at the top of the layer palette, shown in Figure 6-8, and then choose Layer⇒New. FIGURE 6-8: Choose Layer⇒New in the menu to add a new layer. When the New Layer dialog box appears, you have a number of options for creating the new layer. The easiest way to create a new layer is to create a new photo. Photoshop Elements does a good job of creating new blank layers. You can create new photo layers in the following three ways: * To create a new layer, enter the dimensions of the image. * To create a copy of an existing layer, choose Layer⇒Duplicate Layer. * To create a new document of a specific size and resolution, choose File⇒New and then use the File Format drop-down list to choose the appropriate file format. (See Chapter 5 for details on choosing the right file format.)

Mutations in the A region of the thymidylate synthase gene correlate with higher sensitivity to 5-fluorouracil. To investigate the role of the A region of the thymidylate synthase (TYMS) gene in clinical 5-fluorouracil (5-FU) chemotherapy, the A region was amplified from 12 acute lymphoblastic leukemia (ALL) cell lines, seven of which were highly sensitive to 5-FU. By direct sequencing of exon 2 of the amplified DNA, one of the ALL cell lines showed the presence of an additional base, A, at the wobble of CTA codon, resulting in conversion of CTA to ATT. The newly identified mutation was found in a heterozygous state, the other allele of the same cell line being wild-type. By using a DNA binding dye, the interaction of the 5'-end of the amplified DNA with the complementary sequence was analyzed by a bio-oligomer hybridization assay, resulting in the detection of 5'-fragments containing the mutation. The mutation was detectable in 2 out of 14 sensitive cell lines, but was not found in any of the 2-resistant cell lines tested. These results suggest that the presence of the mutation of TYMS in tumor cells may correlate with the sensitivity of leukemias to 5-FU. Q: Which EF Core 2.2 feature could explain this code?
