The new football simulation will have a number of comprehensive game modes in the new “My Team” story mode, such as FIFA Ultimate Team, FIFA Mobile, FIFA Ultimate League and the brand-new “Get To The Ball” mode in the new “Grabbing the Ball” feature. Full game details below: **NEW GAMEPLAY ELEMENTS: HyperMotion Technology** Following the introduction of innovative new gameplay elements in FIFA 17, FIFA World Cup™ Edition, which dramatically enhanced the ‘movement’ of players on the pitch, and FIFA Ultimate Team™, which enabled players to have their own unique ‘stance’ on the pitch, FIFA World Cup™ Edition 2 introduces the most ambitious implementation of the technology yet. FIFA World Cup™ Edition 2 adopts the concept of ‘HyperMotion’, which uses a suite of new physics-based gameplay systems to recreate the highly accurate, realistic movements of real-life professional players at the highest level of play in a way that has never before been possible. The aim is to create the most authentic, physically correct pitch experience ever witnessed. FIFA World Cup™ Edition 2 features the world’s first real-time player and ball motions: players can be seen physically interacting with the ball; goalkeepers, defenders and attackers in the opposition line-up maintain a highly balanced, realistic weight distribution; and movement of the ball is more nuanced, accurate and unpredictable than ever before. The latest engine technology allows for more intense and realistic player animations on the pitch, and high quality graphics which can be seen at all distances. In addition, the weather conditions of key countries during the 2018 FIFA World Cup™ will be fully covered, with a dramatically enhanced back-of-the-book presentation, re-assigned team names, revised kits and unique brand new stadiums. **GAME MODES IN “MY TEAM” STORY MODE:** FIFA Ultimate Team, FIFA Mobile, FIFA Ultimate League and “Get To The Ball” Mode FIFA World Cup™ Edition 2 introduces a full array of game modes to give fans the freedom and variety they have always wanted in their FIFA experience. Starting out with FIFA Ultimate Team – where players can now bring their very own unique ‘stance’ on the pitch – which has been given an all-new makeover, the mode has now been supplemented by FIFA Mobile
