Deep in the heart of the mountain lies a grand palace. A place of intrigue, murder, and betrayal. It is a palace of death, a palace of intrigue and a palace of the undead. Amidst the fertile plains lies a town of ill repute: the town of werewolves. This is where the beast-men live, where the villagers go to sell their souls, where the richest and the poorest live side by side, in an atmosphere of fear and superstition. The kingdom's power rests in its warlocks, enforcers of the local deity - a powerful entity much feared by the beasts, and much sought-after by the wealthy and the wizards alike. "King of the Werewolves" is a roleplaying game set in the classic "Werewolf" universe. The game puts you in the role of a werewolf, or a warlock, or a wizard. With your allies and enemies at your side, you are faced with the exciting task of protecting your town and taking revenge on the ones who ruined your life. A beautiful 3D visual experience, with a complete and customizable character, comes to life with a party of fellow werewolves! You'll play your werewolf character in a town full of members of the beast-men race, such as vampires and ghouls. What makes the game unique? In this game you will be up against other werewolves and their houses. In the course of your adventures you will become the leader of your own house, which you will have to defend against the other houses. Other werewolves, ghouls, vampires and witches are your allies in defeating your enemies, and their houses and factions are your rivals. The more werewolves you defeat, the more power you will get to crush the other houses. In "King of the Werewolves" you are not represented by a randomly selected avatar. Your character is customizable with 100 different characters, 4 different races and 20 different professions. Some professions give you special abilities or bonuses for the battles. Your character can be accompanied by a team of allies. In order to create a strong team of warriors you must train your allies the way you train your own character. You'll be able to customize your group of allies and their special abilities and skills. You can get more information about the character you chose by visiting the Lodge (lodge.betgames.net), where you can also obtain your character's portrait.
