
What's new in Elden Ring:

...it's one of those rare games that you either LOVE or you HATE. It's...the most heavily "core" heavy game for the PC that I've played in years. It's a beautiful universe where you don't just wander the world with your ability to start running and jumping and other athletic stuff(because it's all about your HP). Tarnished has a LOT of mechanics. So much so that I just skim over some of them before I'll go off on a tangent. I'll get to the nitty gritty! ...but let me first say that from 1 to 6 I was mostly left wishing for a better story. The lore was "nice" but I didn't particularly care. You learn more about the world and the story one plays in it. There is love, there is battle, there is betrayal. There are lots of mystery left behind. And an easy victory scenario that makes the combat mechanics really shine, even in single player.the combat mechanics. The combat is extremely hard just to really learn the combat system. The combos are longer than you would come to expect. Reducing it to basic, you have to buy a bow, learn archery skills. And eventually buy a Dragon sword and learn to shoot magic with that. So that great hit rate isn't any hit rate. You have to really work for the combos and survivability. And when you are 'on combo' you are really 'on' in game terms, nay while at the same time you'll be in a position of disadvantage where one mistake and you die. It's you the enemy/boss does not want you to hit at all. So if you try you are dead in less than six hits. So you have to be careful? YES! You have to be. There are tricky enemies, there are tricky bosses, there are tricky environmental objects, there are traps. ...then you put yourself and ALL of your friends into certain spots to figure out the most deadly spells possible to make things more interesting. You'll have to get use to also having different types of players of all skill levels and different natures, so you'll have to pick the type of player you need to maximize the suitability and efficiency of your tactics. You cannot afford to have two really good players fighting each other. You won't be able
